### End of Jim Fox's Records

There are 654 names of workers on these five lists, representing the New Deal transient workers who built the Matanuska Colony in 1935. The lists were retrieved by Jim Fox years ago from the National Archives, after quite some effort. They were tiny very poor grade copies with limited legibility, and there may be errors in the retyping by PHS.

There are many additional New Deal workers who helped build the Colony in 1935-1936 whose names are not on these lists, including subcontractors and Alaska hires. We'll add those names as we find them. This list is truly a work in progress.

We encourage readers to share stories and memories of these workers. The Palmer Historical Society website, [www.palmerhistoricalsociety.org](http://www.palmerhistoricalsociety.org), includes electronic files of these updated lists.
